Disclosure Information

(also known as Public Disclosure)

Should you proceed with our financial advice and we arrange insurance for you, then a fee may be charged.

This fee will be based on the amount of work and time required to provide and implement our advice and will be shown on your invoice.

If we arrange insurance for you and you cancel it part way through the insurance period, we may keep some or all of that fee.

We may charge a fee for making adjustments to your insurance during the insurance period. This fee will show on your invoice.

Sometimes other fees are charged that do not relate to the financial advice such as credit card fees. If so, we will advise you of this in our recommendation.

Conflicts of Interest and Incentives

When we arrange insurance for you, the provider(s) may pay us a commission. The amount of the commission varies between providers and products and is based on a percentage of the Company Premium and Natural Disaster premium (if applicable). Commissions are not payable on FENZ and EQC levies.

If we arrange insurance for you and you cancel it part way through the insurance period, we may keep some or all of the commission/brokerage fees from any refund due to you.

If a person or entity has referred you to us, we may pay them a percentage of the commission and/or fees we receive for their referral.

A financial adviser may have a conflict of interest in circumstances where financial advice has been provided to two clients who later have a dispute. If this occurs the financial adviser will disclose the conflict of interest to you and refer one client to another financial adviser for advice and assistance.

To ensure that our Financial Advisers prioritise your interests above their own, we follow an advice process that ensures our recommendations are made on the basis of the information you have provided and your unique circumstances.

We maintain a register of conflicts of interest, of gifts and any other incentives we may receive. If we believe there is a conflict of interest – real or perceived – we will discuss this with you. i2i undertakes an annual internal review to ensure compliance with these statements.

Premium Funding

Premium funding enables you to pay the insurance premium by instalments, rather than make a lump sum payment.

Premium funding companies charge interest and they take a power of attorney over your insurance policy. This means they have the ability to cancel your insurance policy if you fail to pay an instalment.
